environmental advisors**

Equalisation Mechanism

£1.25 / ha subscription

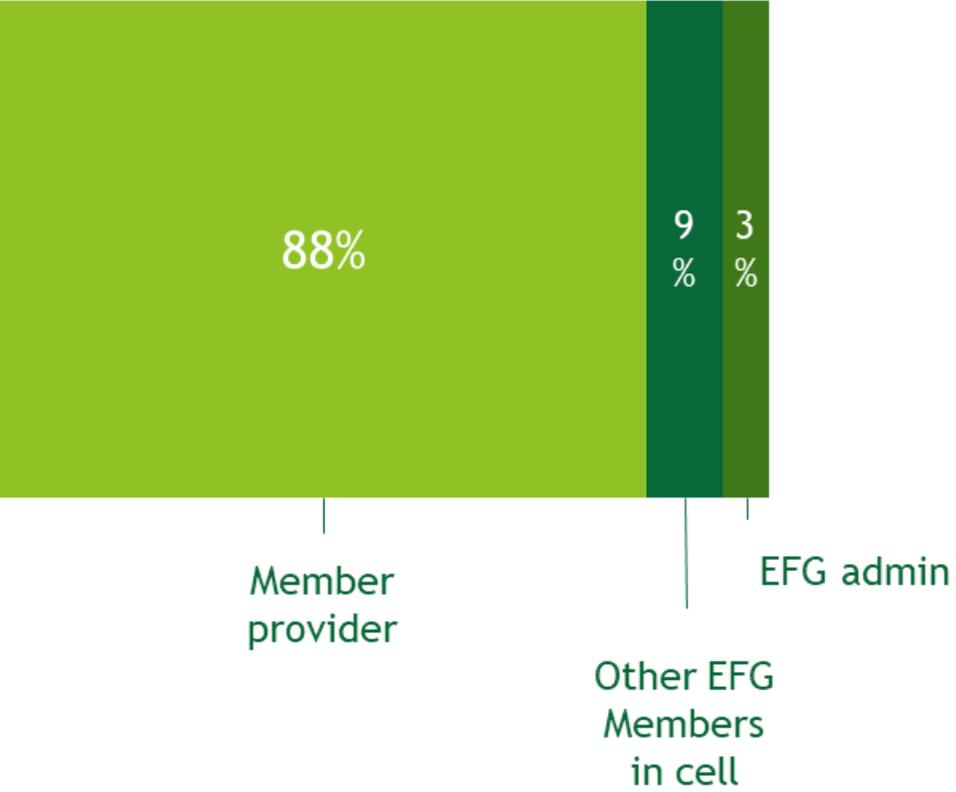

Equalisation policy

Trading all through EFG

Trade Allocation policy

Fair exit arrangement

£

EFG Trading

- £1m trade complete
- Pipeline of 26 trades worth £30m
- Development of voluntary markets

Number of trading leads

Market Development

SCIENCE
BASED
TARGETS

Taskforce on Nature-related
Financial Disclosures

1. Regulated Markets

- BNG
- Nutrient Neutrality

2. Investors

- Lease + sell credits
- Resell credits
- Buy credits for fund

3. Voluntary & Future Compliance Markets

- Marketing - *projects*
- Sustainability - *supply*

Levelling-up and
Regeneration Act 2023

Department
for Environment
Food & Rural Affairs

Environmental targets

How do we monetise?

National 'additionality' targets from Jan 23 environmental targets - habitats

Catchment 'additionality' targets

Aggregate all farms

How much land would you rather not farm?

Farm-level additionality targets

Catchment baseline & uplifted biodiversity / habitats

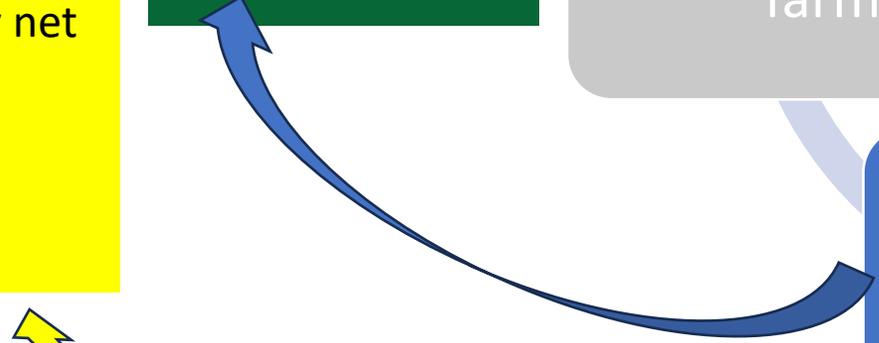

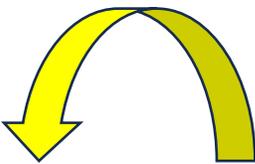

Baseline biodiversity / habitats

ESG trades

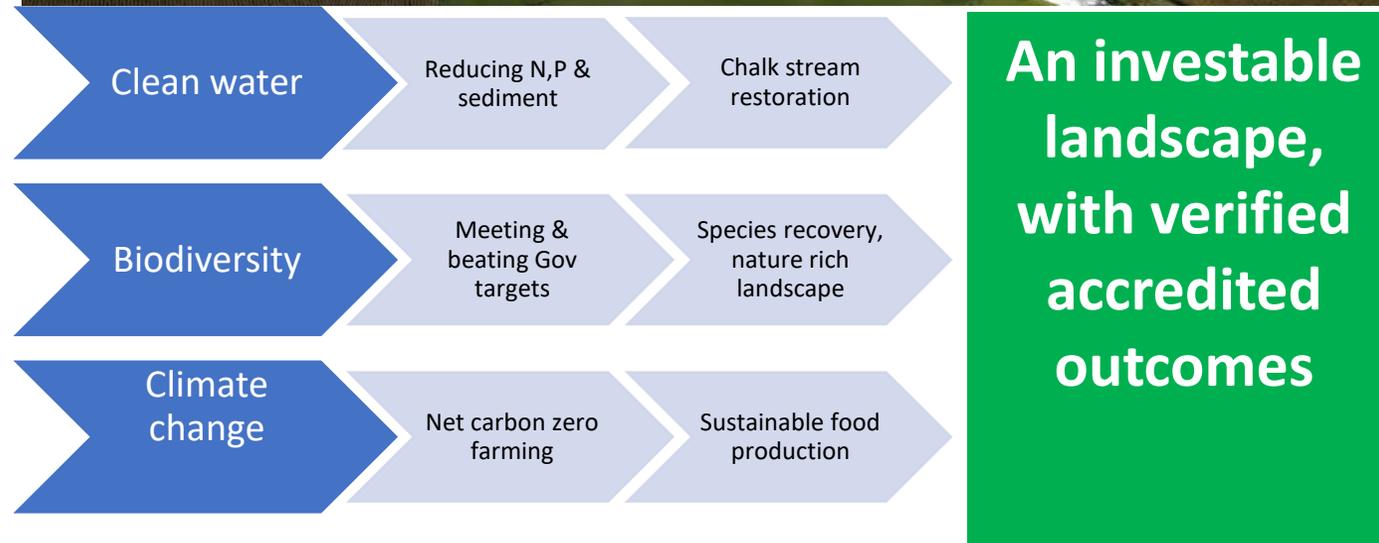

Local environmental trades
Biodiversity net gain
Hedgerow
carbon etc

ENVIRONMENTAL FARMERS GROUP

Bringing it all together – a prospectus for environmental investment

Environmental Farmers Group – farmer owned and led

1. Membership Scale

2. Trade Natural Capital

3. Track Environmental Change

Vision: Farmers protecting & enhancing nature for the public good.

Mission: To harness scale & member cooperation to secure the best environmental results & financial returns for a wide range of natural capital goods and services.

- Biodiversity & Species Recovery
- Clean Water
- Net carbon zero by 2040
