TIMETABLE

Reception ————— 6.30pm

Dinner ————— 7.45pm

Live Auction to follow Dinner

Charles Graham-Campbell of Bonhams
will auction Lots 1-9.

The Silent Auction will be opened by the Chairman at the start of dinner. It will be run on the Givergy tablet systems (see page 25), on which all bidders must be registered. This year, for the first time, you can also bid on your smartphone, so no need to worry if someone on your table is hogging the tablets. Extra tablets will also be available at the Givergy desk - just ask. Bidding will be open throughout the evening.

Pre-bids can be made online or taken by the
Auction Office (see pages 102-103).

RAFFLE

This year we are offering THREE raffle prizes (see pages 22-23). We invite you to put £20 in an envelope at your table - with more chances to win, why not fill in more than one envelope? Completed envelopes will be collected from your tables during dinner, and the Raffle drawn after the Silent Auction closes.

CHAIRMAN'S WELCOME

I am delighted to welcome you to the 2018 GWCT Scottish Auction dinner.

The reception and dinner aim, of course, to be memorable as a source of both fun and funds. As a charity The GWCT relies substantially on the generosity of individuals both financially and in kind. It does essential work in wildlife research and I invite you to read Dr Adam Smith's more detailed comments on page 5.

It has been suggested by some that there is a contradiction in an organisation dedicated to wildlife conservation, habitat improvement and the promotion of a greater understanding of rural activity deriving funding by auctioning field sport pursuits. I see no such contradiction. The GWCT encourages responsible participation in country sports and it surely follows that it should benefit financially from those who are the effective shareholders in the prosperity and vitality of our countryside which is so often under threat from ignorance.

We have been manipulating and using the countryside since the beginning of time, mostly without the support of the scientific evidence that organisations such as the GWCT now provide. Much of the knowledge we now gather is to help ensure excesses are controlled, whether it is increasing predation pressure affecting our song bird population or, indeed, excessive 'bags'. We need to educate, particularly today when the policy winds are increasingly strong. It is up to all of us, as individuals, to get involved and not just rely on others. I'm pretty sure that President John Kennedy was not talking about rural issues when he said 'ask not what your country can do for you but what you can do for your country' (side), but you get my drift.

The interdependence of wildlife and habitat has to be understood and, if necessary managed. Despite what some cosy, anthropomorphic media would have one believe, buzzards, foxes and ravens do not rely on an unbroken diet of scavenged food while this country's domestic cat population is not made up of ornithologists!

I very much hope you will enjoy this evening for the company, food and lubrication. I hope you will also acknowledge the vital work done by the GWCT on all our behalf by keeping both Charles and the silent auction busy.

Organisations such as the GWCT are helping to ensure that my newish grandson can still enjoy the rural pursuits that have been such an important part of all our lives. It is not just the hunting fraternity that are under continual pressure as we are all aware.

Enjoy your evening. Thank you for your support. I hope you go home lighter in pocket but happier in heart.

DIRECTOR'S CUT

I am delighted to welcome both regular and new attendees to the Game & Wildlife Conservation Trust's Prestonfield Auction 2018. The hard work of the voluntary committee will again make this a wonderfully enjoyable event. Your attendance means that our charity will continue to be able to promote the need for game conservation and wildlife management in our countryside.

We are glad to welcome David Noble as the new Scottish Chairman to support us. David has engaged with the Trust at a time when there are many challenges and opportunities for game and wildlife in Scotland and is particularly interested in improving younger generations' understanding of these issues.

Auchnerran, our farm on Deeside, is a vital demonstration of integrated farming and sporting management. We hosted more than 40 groups at the farm in 2017, discussing everything from lasers as wildlife management tools to liver fluke in sheep populations. Visitors included the Cabinet Secretary for farming in Scotland and the Holyrood Committee convenor responsible for environmental matters. We hope you might bid on some of the very enjoyable sport we can offer at the farm this evening (*see Lot 1, p.13*).

The working life of Auchnerran is a very important background for its role as a hub for a number of Trust training activities, as it is increasingly important to 'be up to speed' in this era of certification. We are also running our ever popular 'Young Shooters' course which focusses on the practical and fun side of being involved with game conservation from an early age.

We are engaging our research and policy across a number of practical fronts in 2018:

- **Mountain hare survey:** Celebrated on the cover of this catalogue. We are the leading research charity studying mountain hare conservation and we are mapping the range of the mountain hare in Scotland.
- **Grey partridge:** The conservation of this iconic species is being promoted through the PARTRIDGE project (www.northsearegion.eu/partridge)
- **Wader movement:** Our migration, abundance and breeding success studies of curlew, lapwing and woodcock are possible with your support which means 'high-tech' approaches using radio and GPS tags, as well as the 'boots on the ground'.
- **Grouse moor licensing review:** Running from mid-January 2018 and reporting Spring 2019, a review panel independent of Scottish Government and SNH will consider whether all or parts of grouse moor management should be further regulated.

Your support is enormously important in furthering all our education, research and advisory work. So thank you, and enjoy your evening.

The Galbraith logo is positioned in the top left corner. It features the word "Galbraith" in a bold, dark blue sans-serif font. A small orange square is placed above the letter 'i'. MAGNIFICENT SILVER LIMITED EDITION CAPERCAILLIE

The Capercaillie is in grave danger. From an estimated 20,000 individuals in the mid 1970s Capercaillie now number less than 1,300 which is one of the highest decline rates experienced by any bird species in the United Kingdom.

Our silver Capercaillie, from a limited edition of 15 is a collaboration between Denzil Skinner & Partners and leading UK silver sculptor, Timothy Lukes. Tim lives and works in St Ives, Cornwall, and over a 30 year career has worked closely with many leading British jewellers.

Denzil Skinner has been associated with GWCT for more than 15 years, including a spell as chairman of this event. As such it was only natural for him to collaborate with GWCT Scotland to produce this limited edition, in which the Capercaillie is seen striking the iconic cock bird pose brilliantly executed by Tim who has captured the very essence of the moment.

Each capercaillie bears the Timothy Lukes and London hallmark and is engraved with the limited edition number. He measures 21 cm high, weighs 45 ounce troy and is numbered 7/15.

The GWCT's upland research, and the knowledge gained from it, is being used to establish a conservation action plan. This work needs further funding. So, as well as making a fine table piece in your home, the net proceeds from our silver capercaillie will provide further vital funds. In time he will serve as a reminder of the brush with local extinction that you helped the Capercaillie to avoid.

Guide Price:
£4,200
(reserve: £4,000)

Experience the first day of the Battle of the Somme by walking the ground over which it was fought with Iain Gale, well-known author and military historian.

Iain has been visiting the battlefields of France and Belgium for many years and is currently writing a book on the first day of the Somme, in which British casualties numbered almost 60,000. He takes 6-8 bespoke battlefield trips a year to the Somme, interpreting the events of a hundred years ago for parties ranging from family groups to ex-servicemen.

With a wealth of knowledge, Iain explains the strategic context and takes you into the heart of the action. Dividing the battlefields into easily understood sectors, he makes sense of what can all too easily be a bewildering succession of names, statistics and cemeteries.

As a Scot himself, whose grandfathers fought here in the Gordons and the Black Watch, he offers a unique perspective on the contribution of the Scottish soldier to the most terrible day in British military history.

This trip will last from a Friday afternoon until a Sunday afternoon, is for up to 6 people (in 3 shared rooms in 4 star accommodation in Arras), and includes your accommodation, travel around the battlefields, Iain's commentary and lectures, maps and tour packages for each of you, 'trench style' elevenses, entry to three museums and down into an excavated trench. All other meals and travel from UK to Arras are at your own expense.

ELEPHANT, BY ROY SARKIN

(56cm x 30 x 30, the base 62cm x 28 x 9)

Roy Sarkin qualified as a Master Goldsmith in Germany and has been designing and creating jewellery and sculptures for the past 45 years. He is one of South Africa's finest craftsmen, and with his passion for wildlife, his fine attention to detail and artistic creativity, he creates bronze sculptures that take one's breath away! The bronze of this elephant, Makhadebona, is one of an edition of 40, and is no exception.

Makhadebona lived in the Tembe Elephant Reserve, but was killed by another bull elephant at about 43 years old. Had he lived to old age it is thought his tusks would have been among the biggest ever recorded in South Africa as tusk growth is exponential between 40-60 years of age.

Roy is creatively inspired by life and has an intense passion for birds and wildlife. He has a keen and observant eye that can create masterpieces in bronze, gold, platinum and precious stones.

The sculpture on show at the auction is privately owned, but of the same edition. Your elephant will be shipped direct to you, from South Africa, on purchase (allow up to 2 months for receipt).

Drygrange fishings are located between Tweedwood and Gledswood in a truly picturesque part of the Tweed Valley. The beat is let on a two rod basis and consists of one long pool fishing both banks. Other than in high water it is very much a wading beat, fly fishing only, with access to a hut for lunch. Drygrange is probably the shortest beat on Middle Tweed, but on its day and in the right conditions can often be most productive. The 5 year average is 53 salmon and 12 sea trout. However one epic day in 2014 produced 15 salmon. Edward Dodd, the very helpful ghillie, will be in attendance at the start of the day, but will not be present all day long. A clean fish may be kept.

PIGEON SHOOTING OVER RAPE STUBBLE FOR 4 GUNS

Photo: Clara Reid

A fantastic opportunity of 1 day's pigeon shooting for 4 guns to shoot pigeons over oil seed rape stubble after this year's harvest, on either Oxenfoord or Cranstoun Estate.

The ability to be flexible and prepared to arrange shooting at short notice is advised as the quality of the sport depends on the timing of crop harvesting.

CROC HORNBACK DANGLE EARRINGS

The Patrick Mavros brand was founded 35 years ago when the then-soldier, Patrick, carved a pair of earrings for his wife, Catja. She wore them to the hair salon, where the hairdresser fell in love with them and instantly requested a pair for herself. From this loving gift, the business was born into what is recognised today as a uniquely African and distinctively exotic, luxury brand. The Mavros sons are also all passionately involved in the business.

The Nile Crocodiles which inspired these earrings are the highly successful descendants of a once dominant animal group - the dinosaurs. No African river is considered really wild unless inhabited by this powerful saurian.

BUTCHERED MANGALITZA PIG

Mangalitzza is a very old breed of pig. It is the cutest woolly pig to look at, but it tastes nothing like pork. It is a dark meat, marbled, juicy and very flavoursome thanks to its slow growth rate.

Created by an Austrian Archduke for the Hapsburgs in the 1830's this breed became prized throughout Europe by royalty and aristocracy and even floated on the Vienna stock exchange. However with the 20thC need for fast maturing meat the breed declined, but is now resurgent.

Dunglass are very happy to offer a whole processed pig upwards of 80 kilos dead weight packed and delivered.

FURTHER INFORMATION

Lots can be paid for by cash, cheque or credit card at the desk, or we will email you an invoice.

Where the successful bid exceeds the known reasonable market value of the Lot, by signing a Gift Aid Declaration (you must be a UK taxpayer and have tax paid or payable equivalent to the relief being claimed), you will be able to enhance the value of your donation. Gift Aid allows the Game & Wildlife Conservation Trust, being a Charity, to claim an additional 25% on the difference between the market value and your winning bid. The Committee urge you to help them maximise funds generated by their auction for the Game & Wildlife Conservation Trust in this way.
